

# A Different Teacher Today

A social story for Kairav — helping with anxiety when there's a substitute teacher

1

Ms. Priya is not here today.  
A substitute teacher is coming instead.

2

A different teacher is with my class today. My desk is the same. The class rules are the same too.

3

I can show my Avaz to the substitute teacher. Quacky reminds me that talking with my device is okay.

4

If I need help, I can ask the substitute teacher. She wants to understand my Avaz words.

5

Different teachers can be okay too. I am flexible and can have a good day.
