

# All Done Means Finished

A social story for Kairav — Teaching the foundational AAC phrase 'all done' to communicate completion and move forward

1

I ate my apple. My plate is empty now.

2

I tap 'all done' on my Avaz. This tells everyone I am finished.

3

Mama takes my plate away. She understands my words.

4

I say 'all done' after bath time. I say 'all done' after playing. I say 'all done' after TV.

5

All done helps me every day. When I am finished, I can say it. Then we move to the next fun thing.
