

# Bath Time With Ducky

A social story for Kairav — Making hair washing at bath time feel safer and more predictable

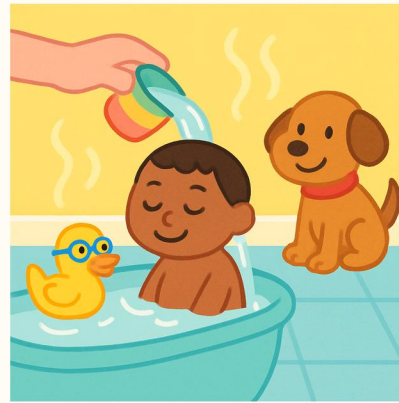

1

It's bath time with Quacky.  
My hair feels sticky today.

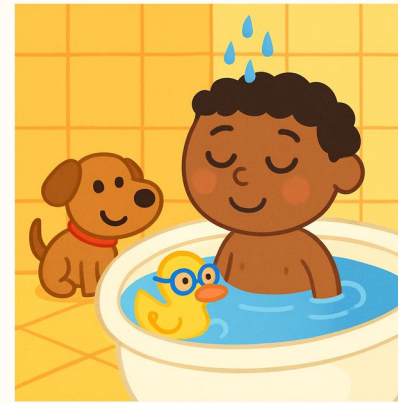

2

I don't like water on my  
face. That feeling makes  
me worried.

3

Mama uses a cup. She  
pours warm water on my  
back first.

4

I close my eyes tight.  
Mama counts to five for  
hair wash.

5

Warm towel hug after bath  
time. I smell like fresh soap  
and feel clean.
