

Crossing Roads Safely

A social story for Kairav — Learning to cross the road safely by holding hands and following traffic signals

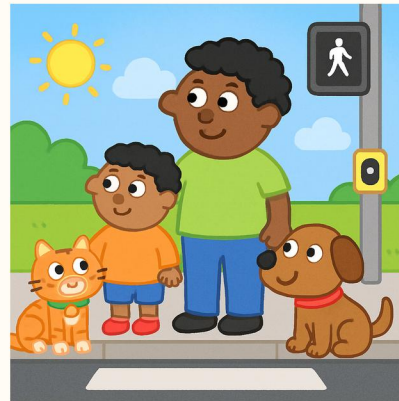

1

The road has fast cars. I can see them moving quickly.

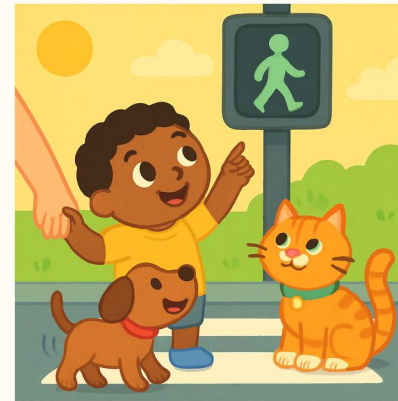

2

I always hold a grown-up's hand. Bruno and Milo stay close too.

3

We stop at the edge. I look both ways for cars.

4

We wait for the green walking man. Now it is safe to cross.

5

I walk across slowly. I do not run. We all reach the other side safely.
