

Games Period Fun

A social story for Kairav — Managing sensory overwhelm during PE class and finding comfortable ways to participate

1

It is Games Period time. I go outside to the big field.

2

There are many sounds and children running. I can watch the sports first.

3

Today I can try one small run. Bruno comes with me.

4

When I feel tired, I sit in the shade. I drink water and take a break.

5

Games Period is done. I tried my best today. That makes me feel good.
