

Movie at the Theatre

A social story for Kairav — Going to the cinema for the first time and managing loud sounds

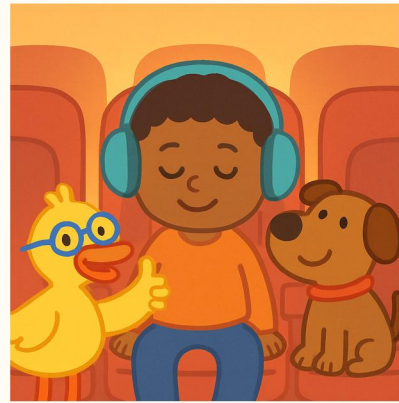

1

Today I am going to watch a movie at the theatre. Quacky and Bruno are coming too!

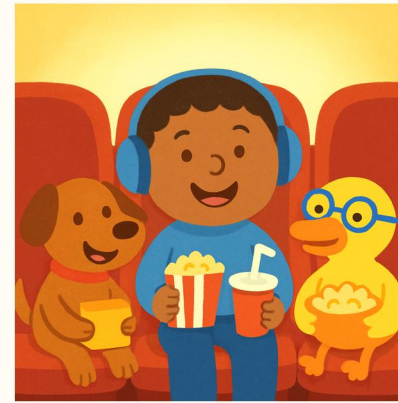

2

The movie room is dark and the sounds are very loud. This feels different from home.

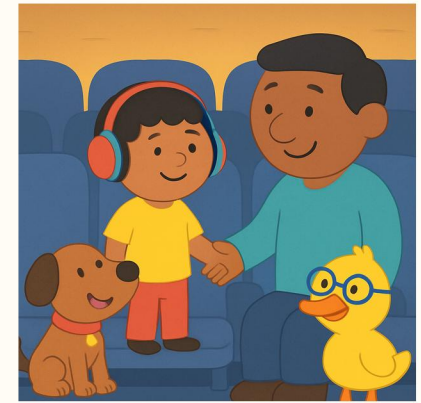

3

I can wear my headphones to make the sounds quieter. Now I feel better.

4

I have popcorn and juice in my seat. The movie shows a story on the big screen.

5

If the movie feels too much for me, I can tell Papa. We can leave and try again another day.
