

# My Cut Gets Fixed

A social story for Kairav — Getting medical care for a cut that needs stitches

1

I have a cut on my arm.  
Red blood came out. Bruno  
stays with me.

2

The doctor cleans my cut  
with soft medicine. It stings  
a little. Milo watches to  
keep me safe.

3

The doctor gives me sleep  
medicine first. My arm will  
feel sleepy and safe.

4

The doctor puts tiny thread  
stitches in my cut. I cannot  
feel it hurt. Bruno and Milo  
stay close.

5

My cut has a white  
bandage on top. My skin  
will heal. The stitches  
come out soon. I am all  
done.
