

# My Metro Ride

A social story for Kairav — Learning how to safely ride the metro with confidence

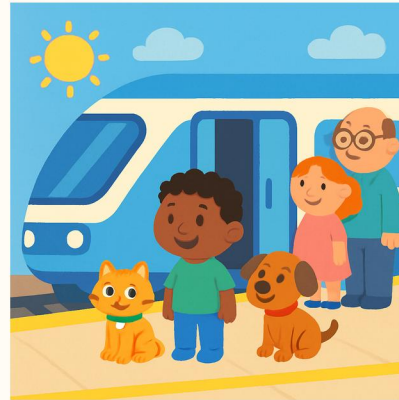

1

I am going on the metro today. I have my metro card ready.

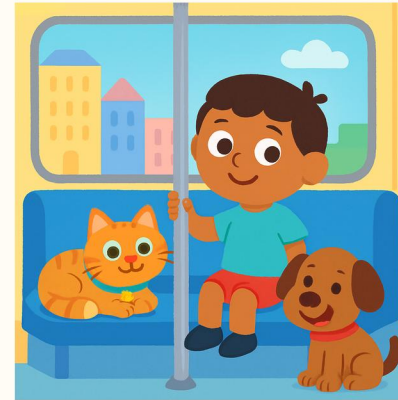

2

I tap my card on the reader. Beep! The gate opens for me.

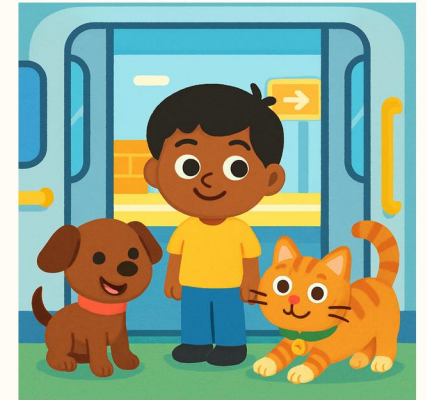

3

The metro doors open and close quickly. I stay back until they stop moving.

4

I find a seat and hold the pole. Bruno and Milo sit with me safely.

5

The announcement says our station name. I step off carefully with my friends. We made it safely!
