

# My Shoes Go On

A social story for Kairav — Learning to put on shoes independently with velcro fasteners

1

Bruno wants to go outside.  
I need my shoes on first.

2

Left foot goes in the left  
shoe. Right foot goes in the  
right shoe.

3

I pull the velcro. I press it  
down tight.

4

Tap tap tap. I check my  
shoes. They feel good on  
my feet.

5

My shoes are on. I am  
ready. Let's go outside!
