

Sunscreen On My Face

A social story for Kairav — Learning how sunscreen goes on my face to keep me safe in the sun

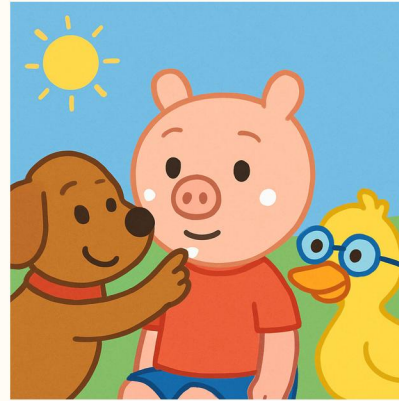

1

The sun is very hot today. I want to play outside.

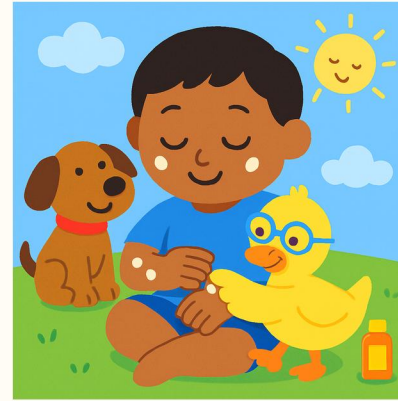

2

Mama has sunscreen. Sunscreen keeps my face safe from the sun.

3

Mama puts one dot on each cheek. One dot on my nose. One dot on my chin.

4

I rub the dots with my hands. The cream feels cool on my face.

5

My hands are done. Now I can play outside with my friends!
