

# Today I Did...

A social story for Kairav — sharing about my school day using AAC

1

Mama asks me about my school day. She wants to know what I did.

2

I can use my Avaz to tell her. Quacky helps me find the words.

3

I tap words about my day. I played at school. I had lunch with my friend.

4

Mama asks more questions. I can nod yes or shake my head no.

5

Now Mama knows about my school day. We talked together and it feels good.
