

When I Need Potty

A social story for Kairav — recognizing the need to use the bathroom and asking for help quickly

1

My body tells me something. I need to use the bathroom now.

2

I tap 'bathroom' on my Avaz. I can ask for help.

3

Teacher says 'yes, go now'.
I stand up right away.

4

I walk fast to the bathroom. I hurry and don't wait.

5

I go back to my seat. I feel good. Next time I will ask early.
