

Working With A Friend

A social story for Kairav — Learning to work in pairs and share tasks with a partner

1

My teacher says we will work with a partner today. I have a partner too.

2

Milo is my partner. He will write the words. I will draw the pictures.

3

I tap 'my turn' on my Avaz. Milo waits for me to share my idea.

4

We work together on our worksheet. I draw my part. Milo writes his part.

5

We finish our worksheet together. We are a good team. I feel happy working with my partner.
